Syntax Highlighting

included for Debugger, Script Editor and Formula editors

```
Let (
    address = Substitute (
        address & " " &
        city & " " &
        state & " " &
        postalCode & " " &
        country ;
        " " ; "+"
    );
    "http://maps.google.com/maps/api/staticmap?center="
    & address &
    "&zoom=" & zoom &
    "&markers="
    & address &
    "&size=" & size &
    "&sensor=false"
);
```

Runtime Shrinker

Save over 50% on your runtime's file size

Name	Größe
test after	69,4 MB
test before	154,9 MB
